

Tongwei Co., Ltd.

Supplier Code of Conduct

Tongwei Co., Ltd (hereinafter referred to as "Tongwei" or the "Company") is committed to upholding both commercial value and social responsibility, and is dedicated to conducting business with higher ethical standards. For the purpose of actively identifying and assessing the environmental and social risks on the supply chain, Tongwei hereby provides the Code of Conduct for Suppliers and gives priority to the suppliers observing the Code of Conduct. The Company is committed to incorporating environmental and social factors into its supplier management mechanism in an orderly manner, and strengthening the performance management of its suppliers in the areas of business ethics, human rights, labor management, environmental protection, occupational safety and health.

With the philosophy of “honesty, trust, fairness, and excellence” , Tongwei requires suppliers to observe all applicable laws and regulations at the business locations and support them to constantly reinforce management on sustainable development of the supply chain for creating a workplace with dignity and moral integrity.

In order to fulfill social responsibilities and commitments on supply chain management, suppliers and partners of Tongwei shall conduct business activities by the following principles:

Business Ethics

- Suppliers shall ensure that their operations, products and services comply with relevant national laws and regulations.
- No supplier shall transfer, re-contract or subcontract any right and obligation to any third party without the prior written consent of Tongwei. Where necessary, suppliers shall timely and completely inform Tongwei of any business contact with any other supplier, subcontractor or subordinate partner.
- Corruption, extortion, fraud, bribery and any other violation of business ethics are prohibited while providing products and services to Tongwei.
- Suppliers shall develop policies and take measures to avoid any conflict of interest or relevant misconduct, align internal interests with employees, specify the boundaries of employees’ responsibilities, and strengthen supervision on the execution of duties.
- Suppliers shall uphold “ fairness, transparency and honesty ” in the process of

competition and cooperation, resisting any false information or fraud for competitive advantage and prohibiting any commercial competition that may cause severe damage to society.

- Suppliers shall hold and utilize trade secrets, trademarks, patents, copyrights and other intellectual property without any infringement upon any intellectual property right or any damage to the reputation of the Company.
- Tongwei enters into *Covenant on Good-Faith Cooperation and Fair Competition*, *Anti-commercial Bribery Agreement*, and *Commitment to Integrity* with suppliers before cooperation with suppliers, and accepts reports via hotline (086-028-86188838/028-86188834) and e-mail (jcb@tongwei.com). Suppliers are encouraged to establish a complete reporting system and informer protection mechanism to supervise and maintain favorable conditions of business ethics with Tongwei.

Privacy and Information Protection

- Any information acquired by suppliers through business contact with Tongwei, including but not limited to information about the business, operations, and policies of the Company, shall be deemed as confidential, sensitive, and proprietary information, which is forbidden to be disclosed to any third party, the public, or media unless authorized by Tongwei or required by laws and regulations.
- Suppliers shall commit to protecting the personal privacy of all business-related personnel, including customers, consumers, and employees. Suppliers shall comply with the laws and regulations on privacy and information security in collecting, storing, processing, transmitting, and sharing personal information.
- Tongwei encourages suppliers to enhance information security capabilities and increase employees' awareness of information security to minimize any jeopardies thereto and strengthen resilience to risks for the supply chain.

Human Rights and Labor

- Suppliers shall strictly comply with local laws and regulations on labor and human rights, and abide by the principles of basic labor rights under the core conventions of the International Labor Organization (ILO). Suppliers are encouraged to conduct compliance traceability to their labor conditions and establish a labor supervision and constraint system for the supply chain to ensure all supply chain suppliers meet the same requirements.
- Suppliers are prohibited from any form of child labor, including any person under the minimum legal working age.
- Suppliers shall eliminate any forced labor or slave labor and comply with regulations on working hours.

- Suppliers shall ensure that employees' salaries are paid on time at least for basic needs or at minimum legal standard while providing sufficient care and benefit to employees.
- Suppliers shall provide employees with respect and equal treatment regardless of ethnicity, race, gender, or religious belief.
- Suppliers shall provide employees with an inclusive workplace without harassment and discrimination and strengthen their sense of gain, happiness and security.
- Suppliers shall respect and uphold the employees' right to express their demands and liberty of association and collective bargaining.
- Suppliers shall respect the freedom of employees in choosing jobs and shall neither retaliate against employees terminating labor contracts nor withhold identity cards, passports and other documents of employees.

Occupational Health and Safety¹

- Suppliers shall provide employees with a safe and healthy workplace, establish a complete occupational health and safety management system with regular recognition of hazardous sources in workplace, and standardize safety operations to eliminate working hazards.
- Suppliers shall have the capability to respond to sudden natural disasters, safety production accidents, and environmental pollution events, and conduct regular emergency drills to reinforce response to real emergencies;
- Suppliers shall provide employees with training on occupational health and safety and regular physical check-up to fully protect their rights and interests at workplace.

Environmental Management²

- Suppliers are required to observe the environmental laws and regulations at the business location and to acquire, maintain and update all necessary environmental impact assessment reports, environmental permits (e.g., sewage discharge permit), and related approval documents.
- Suppliers shall not cause any environmental pollution in product manufacturing or service provision, discharge and dispose of pollutants by state laws and regulations or local policies, avoid using hazardous materials, and reduce the consumption of harmful substances to radically minimize or eliminate pollution factors or hidden risks on environmental protection. Tongwei also encourages suppliers in waste recycling to promote

²For more details on the policies on environmental management and ecological environmental protection, please refer to *Tongwei Co., Ltd. Environmental Management Commitment and Policy* and *Biological Diversity Conservation Commitment and Policy*.

the mode and philosophy of circular economy.

- Suppliers shall develop a sense of sustainability in technological reform on energy conservation and carbon emission reduction, minimize repetitive and excessive packaging, practice green and low-carbon operations and engage carbon reduction in their supply chains.
- Suppliers shall try to avoid any damage to the local ecological environment in the place where they operate, and assess ecological impact before carrying out business activities. Suppliers are also encouraged to fulfill the obligations on environmental protection and ecological restoration to eliminate factors or risks of environmental pollution.
- Tongwei adheres to the concept of green and low-carbon development, incorporates some indicators such as power consumption ratio and water conservation target into the management of suppliers of key products, and gives priority to those with excellent performance (namely providing products or services with low impact on the environment).

Conflict Minerals³

- No supplier is allowed in any way to gain profit from, provide support to or assist any party to violate human rights and humanitarianism during business operations at conflicted-affected and high-risk areas (CAHRAs).
- Suppliers shall conduct responsible investigations on the mineral supply chain, ensure not to involve conflict purchase, and only use conflict-free and permitted minerals in accordance with the Due Diligence Guidelines for Responsible Supply Chains of Minerals in Conflict-Affected and High-Risk Areas, Responsible Minerals Initiative (RMI), and other international conventions. Suppliers are also required to communicate this principle to their upstream suppliers.

Community Engagement

- Suppliers shall maintain close and friendly communication and cooperation with local communities and respect local culture, traditions, and beliefs as well as the informed consent right of communities and residents;
- Suppliers are encouraged to participate in community development with more contributions, thus promoting social and economic growth with sustainability.
