5. Limited Warranty on Power Output

Tongwei also undertakes that the loss of power output, conforming to the comparison between the minimum tolerance which is specified in the label of modules and the practical peak value which is figured out under Standard Test Conditions(STC).

5.1 Half-cell single glass modules

PERC Half-cell Monocrystalline Module: 25 years limited warranty on Power Output, the first year of power loss will be within 2%, and it will maintain loss within 0.55% annually from the 2nd to the 25th year from the effective date of warranty. The last year of power output is not less than 84.8%.

TOPCon Half-cell Monocrystalline Module: 30years limited warranty on Power Output, the first year of power loss will be within 1%, and it will maintain loss within 0.4% annually from the 2nd to the 30th year from the effective date of warranty. The last year of power output is not less than 87.4%.

5.2 Half-cell double glass modules

PERC Half-cell Monocrystalline Module: 30 years limited warranty on Power Output, the first year of power loss will be within 2%, and it will maintain loss within 0.45% annually from the 2nd to the 30th year from the effective date of warranty. The last year of power output is not less than 84.95%.

TOPCon Half-cell Monocrystalline Module: 30 years limited warranty on Power Output, the first year of power loss will be within 1%, and it will maintain loss within 0.4% annually from the 2nd to the 30th year from the effective date of warranty. The last year of power output is not less than 87.4%.

HJT Half-cell Monocrystalline Module: 30years limited warranty on Power Output, the first year of power loss will be within 1%, and it will maintain loss within 0.375% annually from the 2nd to the 30th year from the effective date of warranty. The last year of power output is not less than 88. 12%.

5.3 peak power

The peak power is the maximum power of modules measured under standard test conditions. Standard test conditions are: spectrum AM1.5, light intensity 1000W/m², temperature 25±2°C. Measurements According to IEC 61215, the tests are measured at the junction box terminals. The calibration and test standards for the Tongwei modules are valid on the date of manufacture of the module. The calibration standards are in accordance with the standards approved by the international organization.

6. Repairs, replacements or refunds

- 6.1 If a module has a severe appearance defect or a power loss because of itself through analysis exceeding the guaranteed value within limited product warranty or limited power output warranty, or in the case of the buyer's request by the domestic or international well-known third-party testing organization (the buyer and Tongwei confirmed the choice of the common) identified as Tongwei module causes, Tongwei will choose any of the following relief measures:
